Working experience

Robert Bosch — UX Researcher

JAN.2022 – NOW, Wien (Austria)

- Identified user pains and needs for internal rollout processes, methods, and tools by applying the human-centered design process.
- Created prototypes for use-cases like time planning and measurement overview of rollout topics at one glimpse for several user groups.
- Extracted insights after conducting expert interviews by using affinity mapping.
- Communicated changes in the software-release process to all stakeholders.

Siemens Healthineers — Working Student UX Design

SEP.2020 - DEC.2021, Erlangen (Germany)

- Created user journeys including different storyboards and prototypes to better prepare patients for their examinations. Evaluated these prototypes by interviewing patients to explore user needs for improving patient-satisfaction.
- Designed an onboarding pattern for the design system. Tested two different versions with medical professionals in interviews resulting in a clear preference.
- Designed conversational UI prototypes to explore new market opportunities.

CodeCamp:N — Working Student UX/ UI Design

OCT.2018 - AUG.2019, Nürnberg (Germany)

- Created a style guide and prototypes of precautionary web documents used as a frame for the developers
- Designed a prototype and developed a website with WordPress for a new client
- Implemented the corporate website for CodeCamp:N from scratch.

ProLeit — Software Developer and Tester

JUL.2015 - JAN.2017 and JUL.2021 - SEP.2017, Herzogenaurach (Germany)

- Completed training as an IT specialist for application development, passing through departments like marketing, development and support.
- Developed and tested a self-development kit by applying the scrum process.

Education

Julius-Maximilian-University of Würzburg

MAR.2021 – 12.2021, Würzburg (Germany)

Favorite courses: augmented reality, eye-tracking and visual interface design.

Technical University Ingolstadt of Applied Sciences

SEP.2017 – MAR.2021, Ingolstadt (Germany)

Bachelor of Science, concentration in UX testing and design.

Metropolia University of Applied Technology

AUG. 2019 – DEC.2019, Helsinki (Finland)

Participation in an innovation project successfully presented at the Helsinki fair.
